WILL CUT YOUR TOOL COSTS

A NEW STANDARD BY WHICH TO JUDGE TOOL EFFICIENCY

MOGADORE, OHIO
Suburb of Akron

Oct. 15, 1929

Mr. M. J. Henehan,
1791 Bolling Ave.,
Louisville, Ky.

Dear Sir:-

We have your inquiry to our national advertising and are enclosing literature describing the finest line of hand-forged mechanics hand tools in the world.

CORNWELL QUALITY TOOLS are correctly designed by experienced engineers who thoroughly understand the problems of mechanics who use them. They are hand-forged by expert toolsmiths and properly heat treated by the famous CORNWELL process. You will be surprised at the reasonable prices for their exceptional quality.

The prices shown in our catalog are net to our customers the world over.

CORNWELL equipped mechanics are singled out by Foremen for the more important jobs because their equipment indicates thoroughness and pride in their work.

Make your selections from our catalog and write your order on the enclosed order blank and you will be fully repaid in genuine satisfaction by the strength and long-life of CORNWELL QUALITY TOOLS. Your order will be shipped the same day it is received and all charges prepaid if accompanied by remittance.

There is a distributor near you and we will have him call on you soon. His name and address are listed below.

We thank you for your inquiry and hope we may have the pleasure of serving you.

Very truly yours,

THE CORNWELL QUALITY TOOLS CO.
